- Supporting community pharmacists and their teams to develop and embed continuous improvement in community pharmacy as per Circular [PCA\(P\)\(2016\)15](#), issued on 16<sup>th</sup> September 2016. The priority for this year will be to complete the *Safety Climate Survey* and all community pharmacy teams are expected to undertake, or make preparations to undertake, this activity by the 31<sup>st</sup> March 2017. It is anticipated that the Champions will support this both in terms of preparing and learning from the activity. The Scottish Patient Safety Programme (SPSP) will be supporting 'training the trainers' events for NHS Boards as part of preparing for a series of Quality Road-show Workshops. It is envisaged that Boards will include their pharmacy champions in these training events and encourage their attendance at the Road-show Workshops in order to ensure they have the necessary knowledge to support their community pharmacy teams.

The safety climate survey can be found at :  
<http://www.scottishpatientsafetyprogramme.scot.nhs.uk/programmes/primary-care/pharmacy-in-primary-care>. Access to the Safety Climate Survey via this page will go live on the 1<sup>st</sup> November 2016 which aligns to the Royal Pharmaceutical Society quality improvement road shows. The above web page also contains a link to all the QI modules that pharmacy contractors are expected to complete within the terms of Circular [PCA\(P\)\(2016\)15](#).

5. Practitioner Champions should work with and be responsible to their NHS Board for the programme of work to be undertaken.
6. Community Pharmacy Scotland has been consulted on the terms of this circular.

### **Action**

7. NHS Boards are asked to note the contents of this Circular and to copy to community pharmacy contractors and local pharmaceutical committees.

Yours sincerely

Chief Pharmaceutical Officer and  
Deputy Director, Pharmacy & Medicines Division
